Preface

MOUNT AIRY, N. C.

SURRY COUNTY

A beautiful little city in the valley of the foot hills of the Blue Ridge Mountains, in Surry County, seventy miles west of Greensboro and forty miles northwest of Winston-Salem, located at the terminus of the Atlantic and Yadkin Railway, and on two State and National Highways, the latter on the most direct route from the North through the Valley of Virginia and Roanoke South. Has an ideal climate during the entire year, free from mosquitoes, malaria, etc., with White Sulphur Springs five miles north of the city, a very popular resort.

Is the center of a trade territory thirty to forty miles in radius; handling poultry and produce, last season shipping more than $200,000.00 worth of poultry alone. In addition to the splendid market for fruits generally, there are six large commercial orchards with more than 1,000 acres in apples and peaches that last year produced 120,000 bushels of apples and 12,000 bushels of peaches. There are three large leaf tobacco warehouses that sold 5,000,000 pounds of tobacco last season.

Within a mile of the city is the largest open surface Granite Quarry in the world and one of the largest Quarries of any class in the United States. From here was prepared the stone for the construction of the Gettysburg monument; Delaware River bridge, Philadelphia, and many other buildings and structures all over the United States. This quarry is now working on a $1,700,000.00 contract for stone to be used in the Arlington Memorial Bridge at Washington, D. C., by the Federal Government.

The town has a conservatively estimated population within the corporate limits of 7,500, with a suburban population of approximately 5,000. There are three substantial banking institutions here with resources totaling more than $4,000,000.00. There are six large furniture factories whose total output is valued at $6,500,000.00. They are plants all making high grade furniture and employing skilled labor at most reasonable wages. Two thriving Building and Loan Associations with resources of a million dollars. There are veneer, mirror, hosiery and underwear factories and three smaller lumber and furniture concerns.

The ten leading industrial plants of the city in 1927 employed more than 2,500 employees and paid them $2,246,000.00. All industries have run full time for years past and are making money. The Post Office receipts for the past year were in excess of $29,000.00.

(Continued on page 8)

(Continued from page 7)

There are eight blocks of business houses, all of improved brick, granite or fireproof construction. Four wholesale houses and brokerage concerns which last year sold a total of $1,129,760.00; the retail stores compare most favorably with those in cities three and four times as large, in selection and character of goods handled. There are three modern school buildings representing an investment of $219,766.18 and more than 50 teachers employed, with 1800 pupils enrolled.

There are eleven churches with buildings costing approximately $650,000.00. The city has eleven miles of paved streets, 25 miles of paved sidewalks. An unlimited supply of cheap hydro-electric power is furnished by the Southern Power Company. A thoroughly modern and adequate water and sewer department is owned by the city and two motorized LaFrance fire trucks lend their protection. There are two weekly newspapers with combined circulation of 4500 copies.

The back country and suburbs teem with an unlimited supply of unskilled Anglo Saxon labor—which is easily trained and content to work for reasonable wages. There is not the vestige of a Labor Union in the County and no prospects of such for years to come. The people are law-abiding, home-loving and Godfearing.

PRINTING

In Fact, Anything You Want in the Printing Line.
Our Aim Is Good Workmanship
and Prompt Service.

Ever since the day Ben Franklin revolutionized the world by his first sheet, fresh with printer's ink, the printing industry has come to the front by leaps and bounds. Today printing is an absolute necessity.

PINE BLUFF CHAMBER OF COMMERCE

Pine Bluff, Arkansas

October 12, 1926.

Piedmont Directory Co.,

Miller Bldg.,

Asheville, N. C,

Attention Mr. A. E. Miller, Sec'y.

Dear Sir:

Yours of October 9th received, advising that your company contemplates making a new directory of Pine Bluff, to be issued in May 1928.

We are indeed glad to learn that Pine Bluff is to have an up-to-date directory; and this organization will be glad to co-operate with you in the preparation of the book.

Yours very truly,

C. E. TAYLOR, Manager.

UNION COUNTY CHAMBER OF COMMERCE

Union, S. C.

March 22nd, 1928.

TO WHOM IT MAY CONCERN:

The Union County Chamber of Commerce gives its hearty endorsement to the idea of The Commercial Service Company of Asheville, N. C., of bringing the Union City Directory up-to-date. This means the publishing of a new City Directory.

Any courtesies shown Mr. Wooding of the above concern will be appreciated.

Very truly yours,

R .G. HILL, Sec.

STREET DIRECTORY OF MT. AIRY, NORTH CAROLINA

Giving names of Householders and denoting Business Places

VOL. I THE PIEDMONT SERIES 1928-29

NOTE—All streets and avenue are arranged in alphabetical order, the house numbers are arranged in numerical order with names of householders after each number.

Dash (——) before name denotes that number is wanting.

(*) Purpose of (*) in front of the names is to denote colored person or firm, but we assume no responsibility for its wrong use, errors often creep in.

CLEANED!

READ BEFORE YOU SIGN

Written contracts create mutual obligations. One of the cornerstones of modern commerce is the Contract of Purchase. Written contracts have found their way into human and business relations because their use serves to lessen and to prevent misunderstandings between parties to an agreement.

The purchaser owes it to his pocketbook and his conscience to give SPECIAL ATTENTION to that part of the contract which tells him what he is to get, what he is to pay and when.

Don't sign a contract with your eyes shut. Don't take a salesman's word for everything. Occasionally an employer may make a mistake in the selection of salespersons. That seems to be inevitable in all types of business.

But it lies with the customer whether such a handicap to mutual understanding is to be slight or serious. A salesman may convey misnderstanding through zeal or carelessness or even by intent, but the contract if the customer will read it will usually clear up such divergencies, there it is set down in black and white to prevent misunderstandings.

When a signature appears on a legal contract it is a foregone conclusion that the signer is indicating his or her honorable intention of carrying the matter through to a finish. The whole commercial world of debits and credits is built upon and maintained by the strength of signed legal paper. People who sign contracts without reading them, should swallow their losses in silent chargin.

WRITTEN CONTRACT

I Agree To Deliver	"THE DOTTED LINE" — This balance should be maintained wherever written agreements are used to record the understanding between Buyer and Seller.	I Promise To Pay
